

# CICLOS DE CINEMA NA EOI SANTIAGO DE COMPOSTELA

*"interacción xeracional"*

The film follows the incredible life story of Edward Bloom (McGregor/Finney) and his relationship with his son, Will (Crudup). In the beginning of the film, Will hasn't talked to his father for years, following an incident that assured his belief that his father was a liar who couldn't care less about his family. He approaches him again only after he learns that his father is dying.

The movie is portrayed through flashbacks, as Will tries to recall and piece together the stories his father used to tell him about his many adventures and how he lived his life, which he believes to be tall tales and impossible to believe. Bloom's stories contain fantasy elements showing him as a lucky hero with few personal flaws.
